

## ADVANCED TRAINING FOR SERVICE ON SHIPS OPERATING IN POLAR WATERS (MCA APPROVED)

### OVERVIEW

The Advanced Polar Code course is principally intended for Masters and Officers in charge of a navigational watch involved in navigating in ice conditions. A trainee successfully completing this course will be able to use the knowledge and experience gained to overcome the problems brought about by navigating in ice covered seas.

Course content:

- Plan and conduct a voyage in polar water.
- Manage the safe operation of vessels operating in polar waters.
- Maintain safety of the ship's crew and passengers and the operational condition of life-saving, fire-fighting and other systems.

There are five outcomes to the training

- Ensure vessel preparedness for voyages operating in polar waters
- Ensure crew and passenger preparedness on vessels operating in polar waters
- Plan and conduct a voyage in polar waters
- Manoeuvre and operate the vessel safely
- Manage the response to emergencies

**Please refer to MIN 595 paragraph 9.**

To be issued with a CoP for Advanced Training for Ships Operating in Polar Waters you must:

- (a) Have met the requirements for certification in basic training for ships operating in polar waters;
- (b) Have completed two months approved seagoing service in the deck department at either operational or management level polar waters or equivalent\*\* ;
- (c) Complete an MCA approved Advanced Training Programme for Ships operating in Polar Waters.

\*\* Equivalent seagoing service will be considered on a case by case basis based on evidence of familiarity with tasks listed in Section B-V/g of STCW Code. Evidence should be in the format of a company letter detailing; your roles and responsibilities against the guidance listed in Section B-V/g of STCW Code, the vessel(s) you worked on, the area(s) you operated in and the dates that your vessel(s) operated in the equivalent waters.

## **ASSESSMENT**

During the course candidates will be assessed by short answer questions and observation during simulation exercises covering the topics covered in Column 4 of Table A-V/4-2 - Criteria for evaluating competence.

Specification of minimum standard of competence in advanced training for ships operating in Polar Waters.

## **FURTHER INFORMATION**

If a company wants specific dates for a course then we will do our best to accommodate provided there are a minimum of 2 people for the course.
