

ELECTRO TECHNOLOGY TUTORIAL

OVERVIEW

SQA Electro Technology Management Level III/2 is a core component of the academic requirement for ETO CoC. This tutorial session is designed to support distance learning candidates. The tutorial is spread over three days with the exam scheduled by SQA on the fourth day, learners are expected to bring work with them that they need further guidance on to better prepare them for the examination.

Please note: this is not a taught lecture and serves the purpose of guidance on topics specified by the learner(s).

ENTRY REQUIREMENTS

Although there are no formal entry requirements, this is an academic course and as such mathematical ability is required.

It is advised that anyone who does not have a level three mathematics qualification should first study the 2nd Engineers Distance Learning Module available from the college – enquire using the ask a Question Link on the right hand side of this page. Successful completion of the Mathematics module will greatly assist the understanding of this topic.

ASSESSMENT

No assessment.

PROFESSIONAL OPPORTUNITIES

Successful completion of this course is a requirement for the UK Electro Technical Officer Certificate of Competency (ETO CoC).
