

INTRODUCTION TO DIGITAL VIDEO EDITING

OVERVIEW

Capturing high-quality video has never been easier, but capturing video is only part of the storytelling process.

During this course you will learn the basics of digital video editing; how to import and organise your footage and assets, trim clips and add them to a timeline, and how to sweeten audio. You will learn about colour correction and grading, video effects and transitions, and more.

Using industry standard software this course is perfect for those who wish to learn how to use edit video or develop their video editing skills further. You will be taught by an experienced video editor who currently works in the industry.

ENTRY REQUIREMENTS

There are no formal entry requirements for this course as this serves as an introduction to develop your skills in Digital Video Editing
